Dear Student:

Welcome to your first year at Coles School. We have been working to get ready for a great year. Your teachers have been planning and preparing to have many interesting things for you to do and to think about.

I am looking forward to visiting your class to see you in action.

Please remember to talk to your parents every day. Parents love to hear about school. Think about what you learned and what you did at school. Find a special time every day when you can share this with someone special at home.

Warmly,

*Dr. Evans*

Principal
