

## ***KIDS CARE***

Evergreen School will be teaming up again with *Second Chance Toys*, an organization that rescues and recycles unwanted plastic toys for needy children.

To emphasize the true meaning of Thanksgiving, your clean, gently used plastic toy donations will be collected and given to organizations that care for needy children. Additionally, by keeping these toys out of our landfills, you will be helping the environment, as plastic toys do not biodegrade easily.

Please think of making room for new toys for the holidays by dropping off your gently used plastic toys in the front of the school on Tuesday, November 25<sup>th</sup> between 8:20am and 9:30am. Toys must be plastic, clean, in good condition, have no small or missing pieces, and battery powered toys need to be operational.

Thanks from Evergreen School and *Second Chance Toys* for providing a gift of happiness for needy children and for doing your share to save the environment.
