

## **BUS TRANSPORTATION:**

It is the policy of the Scotch Plains-Fanwood Board of Education to transport School One students if they reside on the north side of Route 22. Transportation is also provided for special education and English as a Second Language students that live outside of the School One district, and for students in kindergarten through Grade 8 that reside two or more miles from school. Safety on the school bus is not solely the responsibility of the school and the bus driver. Safety requires the constant support and attention of the pupils and their parents. State law allows for the temporary or permanent denial of bus privileges to students whose behavior presents safety hazards.
