The SPF Bring Your Own Device (BYOD) wireless network:

spfbyod

IS NOW AVAILABLE FOR STUDENTS!!!

- All users with a school district network user account can now connect their smartphone or other wireless device to the district's wireless network **(spfbyod).**

- Use the wireless settings on your device and connect to the **spfbyod** network.

- At the login page, enter your network username and password (not your email address)

Welcome to spfbyod

You will need to be on the list of authorized users for this network in order to access the Internet.
