August 19, 2019

Dear Scotch Plains-Fanwood Community,

Scotch Plains-Fanwood is an exceptional place. I am so happy and proud to begin my journey as the Superintendent of Schools for the Scotch Plains-Fanwood School District. Our schools are deeply supported by a committed Board of Education, two caring civic communities and supportive parents. Our accomplished teachers, dedicated administrators and myself share a common focus on collaboration to offer our vibrant student body opportunities to grow, learn and succeed in and beyond the classroom.

As a district, we want to share and highlight these success stories while continuing to ensure that each student has the same opportunity to benefit from the rich resources within our system and communities.

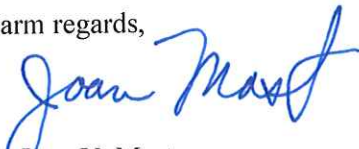

We always strive for ongoing excellence while we help all students achieve their dreams. The District's strategic plan for 2017-2020 provides us with this roadmap for ongoing efforts and focus:

- Goal 1: Health and Wellness
- Goal 2: Real World Connections Across the Curriculum
- Goal 3: Professional Development
- Goal 4: Community/Parent Engagement

During the 2019-2020 school year we will continue to advance these goals, maintaining a sustained focus on Health and Wellness, fostering Creativity and Innovation in our Curriculum, seeking relevant and engaging Professional Development and strengthening relationships through Community and Parent Engagement.

It is my personal goal to do all I can in the year ahead and beyond to continue to have our schools be a force in the community to sustain the well-rounded education of our students. I look forward to collaborating with all of you in these efforts.

Warm regards,

Dr. Joan V. Mast
Superintendent of Schools
